

Electrical cardioversion

We are located at Medicinsk och geriatrisk mottagning 2, target point A61, Hjärtmottagning.

Strict fasting the night before the electrical cardioversion.

- Do not eat anything after 8 p.m. (20.00).
- Do not drink anything after midnight (24.00).
- Smoking or use of tobacco products is prohibited.

During the night and morning nothing may be consumed. Morning medicines may be taken with a sip of water.

Please note that you are not allowed to drive after the electrical cardioversion.
